Meeting Minutes - 6:30 pm on March 20, 2018

Guest Speaker: Ellen Cochran, SCUSD Board Member

- Testing for speciality high school programs will be taken at the Jr. High (this is a new development). Kit Carson continues to grow and develop and will likely be one of the best school's in the district if they continue on this path.
- Your school safety plan is in the office. You to are welcome to view the plan. Mr. Dixon can provide access.
- Audience questions:
 - **What is the district doing to improve communication between parents and administration during emergency situations?** The district is retooling their communication with parents in regards to emergencies on campuses throughout the district.
 - **Black top maintenance - What is the process for getting our blacktop repaved?** It will not hurt to go to school board with pictures and accident reports. Grassroots campaigns can help.
 - **What is the board stance on priorities for school technology?** Elliot Lopez is in charge of this at the district level. He is working with schools on bringing internet technology to the schools. The district is constantly looking for funding for these programs. Your presence at a school board meeting could make a difference. Highlight disparities between schools and districts in your argument for why we need certain technologies.
